Cumulative Cases

	Positives	Fatalities
Georgia	772	25
U.S.	35,530	473
World	354,677	15,436

Hot Topic

Why are reporting numbers different?

In order for DPH to report a COVID-19 case or death, the case must be confirmed by the department through testing or postmortem examination. It is a necessary step in ensuring that the information released is accurate. The biggest current lag in reporting is providers receiving results and reporting them to the state, as the state does not directly receive many of the test results. Any private provider who orders a test receives the results and then must report them to the Department of Public Health since COVID-19 is now a reportable disease.

COVID-19 cases positive counties: 67

*Based on patient county of residence when known

Fatality Statistics

Median age: **69**
 Age Range: **42-85 years**
 Sex: Male **12** Female: **13**
 Cases with pre-existing condition: **20 (4 unknown)**
